

Navigating the SBP EasyData Portal

SBP EasyData is a friendly and intuitive data interface that aims to provide a rich and reliable repository of official data pertaining to External, Monetary, Financial and Real Sectors. Presently, the portal hosts almost 8,000 variables grouped in more than **100 datasets** categorized in terms of real sector, interest rates, Pakistan's debt profile, current account, exchange rates, external sector etc. The portal is a one stop solution for data and is widely used by local and international stakeholders including financial firms, brokerage houses, journalists, research associates, Government organizations and academic researchers. While the data is freely available in downloadable format to be used in many statistical programs like R, E-views, etc. for further analysis, interactive graphs with chart options are also available for a quick glance of trends in key economic indicators.

The portal further allows users to create customized dashboards and personalized data baskets for variables of interest.

State Bank of Pakistan is the sole compiler of almost 80% of this data with the rest sourced from Ministry of Finance, Pakistan Bureau of Statistics, Provincial bureau of Statistics of Punjab & Sindh, Pakistan Stock Exchange, Pakistan Automotive Manufacturers Association, All Pakistan Cement Manufacturers Association, Oil Companies Advisory Council, National Electric Power Regulatory Authority and National Fertilizer Development.

Speaker

Ms. Mahwish Shozab

**Deputy Director, Data Services
and Innovations Department
(DSID), State Bank of Pakistan**

Ms. Shozab is a statistician, academically and professionally, who has played a key role in the development of the "SBP Easy-Data portal" and is also working on enhancing the scope of data coverage and to further improve data availability in coordination with relevant stakeholders. Over the last seven years, Ms. Shozab has been part of various automation projects of SBP including implementation of Balance of Payment Manual 6, statistics of Banking on Equality, Branchless Banking etc. She continues to be an active member of first hand support team for guidance on issues and queries related to SBP's Data Acquisition Portal (DAP). Ms. Shozab is also a seasoned trainer and has conducted many data related trainings and workshops for banks, Government organizations, Exchange Companies etc.
