# FINANCIAL INCLUSION & WOMEN'S ACCESS TO FINANCE

Venue

**NIBAF Islamabad**

## COURSE OVERVIEW

Financial inclusion is one of the hot topics across the banking industry in Pakistan. Particularly, when it comes to women's financial inclusion and next step being their access to finance, we come across a universe of challenges. The program will discuss the most pinching/triggering challenges and the ways to address them.

The salient feature of this program is the use of case method of teaching. Case-based learning is an established approach used across disciplines where learners can apply their knowledge to real-world scenarios, promoting higher levels of cognition. The case method is extremely helpful to foster experiential learning through self-guided mechanism. The indigenous case studies developed in collaboration with partner institutions are intended to acclimatize learners with the environments similar to their workplace and enable them to reflect on ambiguous situations.
