TIME: 2:00 PM – 6:00 PM

GREEN FINANCE & CLIMATE SMART AGRICULTURE PRACTICES

Training Mode

ONLINE

LAST DATE OF REGISTRATION
10 JULY, 2023

COURSE OVERVIEW

The negative impacts of climate change are already being felt around the world, in the form of increasing temperatures, weather variability, shifting agroecosystem boundaries, invasive crops and pests, and more frequent extreme weather events. Climate change is reducing crop yields, the nutritional quality and lowering livestock productivity. This training will apprise the participants about the Climate-Smart Lending Platform and how it would help lenders to cater climate while processing credit requests and at the same time incentivizing the adoption of climate-smart farming methods by farmers.
