NIBAF Pakistan
EMPOWERING FOR EXCELLENCE

BANKER 2.0

YOUR AI-POWERED FUTURE

Empowering Banking Professionals for the AI-Driven Era

Learn AI. Automate Banking Work. Build Smarter Solutions.

A practical, hands-on training program to help banking professionals use AI tools, data analytics, intelligent automation and AI-assisted development to improve everyday productivity, reporting and decision support.

FEE: PKR 24,000 (Plus Tax)

LEARNING OBJECTIVES

- Apply Generative AI tools and effective prompting to solve everyday banking challenges.
- Use ChatGPT, Claude and Gemini for banking documents, research, reporting and professional communication.
- Analyze banking data and prepare Excel reports, dashboards and executive presentations using AI.
- Automate repetitive banking tasks with n8n workflows and AI agents.
- Develop simple banking utilities and application prototypes using AI-assisted development tools.
- Apply responsible AI, data privacy, cybersecurity and human-review practices in banking work.

COURSE CONTENT

- AI-Powered Banking Workplace — Generative AI, Agentic AI, intelligent automation, Vibe Coding and practical banking use cases.
- Smart Prompting & AI Productivity — Prompt engineering with ChatGPT, Claude and Gemini for finance, operations, HR, audit and compliance.
- AI for Data, Reports & Presentations — Excel formulas, data analysis, PivotTables, dashboards, PowerPoint and executive reporting.
- AI for Documents, Research & Knowledge — Policy analysis, regulatory documents, NotebookLM, source-based research and briefing notes.
- AI-Powered Visual Communication — Google Flow, visual content and short videos for banking awareness and learning.
- Intelligent Automation & AI Agents — n8n workflows, triggers, approvals, multi-step processes and human-supervised agents.
- AI-Assisted App Development — Codex, Vibe Coding, Google Antigravity and practical banking application prototypes.
- Responsible AI & Governance — Data confidentiality, hallucinations, cybersecurity risks, validation and human accountability.

TARGET AUDIENCE

Banking Operations, Finance, HR, Audit, Compliance, Risk, IT, Digital Transformation, Customer Service and Management
